

It took real genius to create carpeting so distinctively new and individual as that in the Aztec Theatre at San Antonio.

Carpets Woven to Order for Unusual Decorative Requirements

THE problem of combining the old, and almost lost, architecture of the ancient Aztec Indians with all the modern comforts and conveniences in the Aztec Theatre at San Antonio, Texas, was a difficult one. One must, for instance, have carpets in keeping with the quaint, colorful, almost Egyptian art that reflects Aztec lore and tradition throughout the theatre.

It is not surprising that those who planned this theatre turned to the Mohawk Carpet Mills to solve the difficult problem in floor covering. Thus, a Mohawk Gordon Wilton of special geometric pattern, into which was worked the initials "AT" was designed and woven to order.

And the Aztec Theatre is but one of many palaces of amusement where pleasure seeking folk tread their way across Mohawk floor coverings. Mohawk is the only mill in America producing all of the modern weaves in rugs and carpets. Exactly the right fabric for each particular need can be supplied.

Theatres, hotels, clubs and similar institutions can have floor coverings woven to order—produced in any shape, in any pattern, and in any width, without a seam up to 30 feet wide. Our designing department is always at your service through your preferred contract supply dealer.

MOHAWK CARPET MILLS,
Amsterdam, N. Y.

Throughout the entire building, the "AT" symbol of the theatre is effectively woven into the design of the carpeting in the Aztec Theatre
