## THEATRE IS DESTROYED

### By Fire in Scotland--Nine People Killed

(By United Press to The Telegram.)

EDINBURG, May 10.—Fire last night destroyed the Empire Music Hall and killed nine people. A performing lion on the stage when the fire started burst the wooden bars of its cage and blocked the stairway leading from the dressing rooms. Lafayette, the lion's master, and his two assistants are among the dead. Their bodies were found this morning beside the charred corpse of the lion. The orchestra remained in their seats playing "God Save the King" until their clothing scorched.
