RAMOVA THEATRE
CHICAGO

M. O. NATHAN, ARCHITECT

This stadium type house in the atmospheric style is located on Halsted at 35th St., and emphasizes that the de luxe note in design and decoration is no longer confined to the neighborhood theatres in the more exclusive residential districts. The Ramova has a seating capacity of more than 1,200 persons. It is operated by the Ramova Theatre Corp., of which Harry A. Rackas is president. The theatre was opened in September.
